

About Beltone

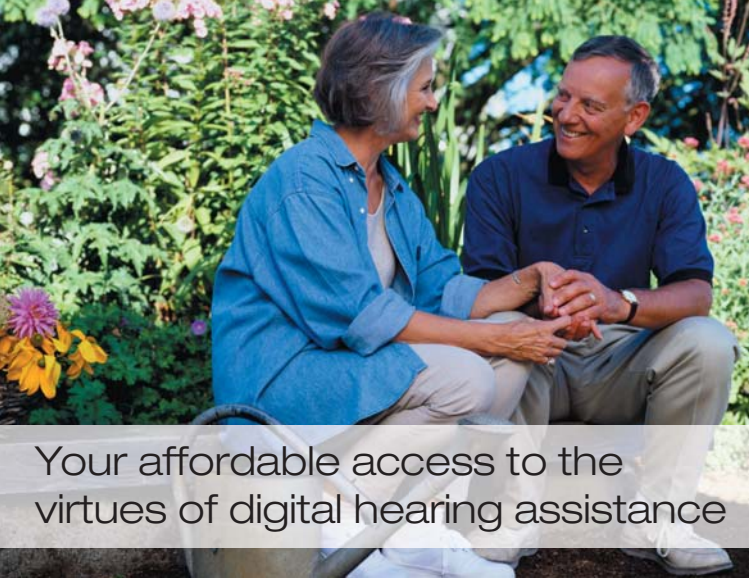

Beltone was founded on the act of helping a friend to enjoy life more. Since 1940, we have focused on making quality hearing care available to more people by providing knowledge, tools, service and training to the professionals servicing the hearing impaired. In doing so, Beltone develops technically optimal hearing solutions without ever losing focus on the individual's needs.

Your hearing care professional

EZ TRIM PLUS™

Beltone EZ TRIM PLUS
Easy to use
- easy to hear the improvement

Your affordable access to the virtues of digital hearing assistance

Fits your lifestyle

With the Beltone EZ TRIM PLUS you will get the benefits of digital sound quality at a very affordable price. With this hearing instrument you will regain the ability to hear and understand things that have been unclear to you until now.

Fits different situations

Beltone EZ TRIM PLUS can support you in different listening situations. With EZ TRIM PLUS hearing instruments you can have two programmes, which are individually tuned for the different sound environments, which you most often encounter. The benefit of being able to easily switch between the two programmes will make your life much easier - try it yourself!

Furthermore a telecoil makes sure that you get a good and clear speech understanding and sufficient gain for instance when you are in the cinema, the theater or watching TV at home.

Fits your needs

The EZ TRIM PLUS comes in different types and shapes to fit your particular need. A manual volume control provides you with the flexibility of adjusting your gain setting according to your requirement. This enables you to feel at ease and follow conversations you might have had problems following before.

Comfortable hearing

The Beltone EZ TRIM PLUS is very easy to use and wear. As soon as you turn the instrument on, background noise will be reduced and you will experience the sounds in your ears as comfortable ones.

The well-proven Beltone digital technologies prevent sudden loud sounds from being amplified too high, while you still receive a satisfactory amplification making your hearing experience a comfortable one. What is more a long battery life and a low battery warning ensures you a hassle-free experience when wearing a Beltone EZ TRIM PLUS hearing instrument.

EZ TRIM PLUS fits comfortably behind the ear and is also available in models that are placed in your ear canal.
